POST SHOW REPORT

We are pleased to inform you that thanks to your supports, 「Future Monodzukuri International EXPO 2025」 「JIOSH+W」 「Well-being Technology Exhibition/Well-being Construction Technology Exhibition/Well-being Fine Bubble Industry Technology」 came to an end with great success. We would like to express our deep gratitude to all the exhibitors, related authorities, organizations and associations as this achievement would not be made if it were not for your warm support.

The contents and the brief report on the Exhibitions are shown in the following pages for your reference.

Thank you very much again, and we sincerely appreciate your continued supports.

August 2025

Jul.18(Fri.)		
15:50~16:30	『Health to measure』	BIOTONIX
Jul.19(Sat.)		
10:30~11:10	『Meet the International Occupational Hygiene Association – the global occupational hygiene network』	IOHA

Exhibitor Reception & GISHW delegate party

Day : Jul 16 (Wed.), 2025 17:30~19:30

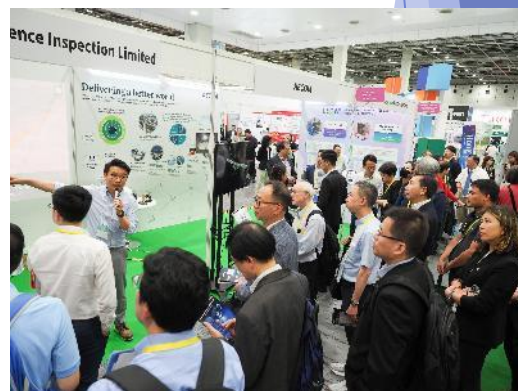

Venue : Grand Prince Hotel Osaka Bay Prince Ballroom

Corporate Booth International Exchange Tour Hong Kong OSHC (Occupational Safety and Health Council)

Day : Jul 18 (Fri.), 2025

The Hong Kong OSHC and 17 Hong Kong exhibitors visited booths from both Japan and overseas. They exchanged information on products and technologies and engaged in international exchange.

【ONSITE】 The Special Events

A safe and comfortable ride experience of the future

Venue: Zone A

"Comove" is an environmentally friendly vehicle that does not emit CO₂. It contributes to carbon neutrality and supports the SDGs. It can coexist with pedestrians at a maximum speed of 6km/h or less. No license is required and safety and comfort features are standard. To make the world of transportation more exciting! We value well-being and provide a better living environment.

>Partner: TOYODA IRON WORKS

Experience a mobility solution that combines robots and mobility

Venue: Zone A

A mobility solution that combines autonomous driving and autonomous following functions. It consists of three models: an autonomous driving and guidance robot, a baggage-carrying mobility vehicle, and a passenger-mounted mobility vehicle, and is expected to be used in large indoor spaces such as airports and shopping malls. You can experience the near-future autonomous driving that combines human movement and baggage delivery.

>Partner: ROBOLUTION

Practical drone piloting experience for inspection and survey

Venue: Zone A

Many companies have issues such as aging facilities, and drones are becoming more effective in the inspection and survey fields from the perspective of cost reduction and labor saving. At the venue, school staff with practical experience will be by your side, so you can experience flying with peace of mind.

>Partner: ITEM (DRONE SCHOOL SORAGOKOCHI)

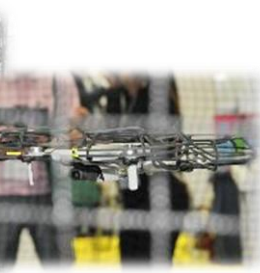

A special Mini 4WD made by a manufacturer using their own technology

Venue: Zone A

Companies that are serious about manufacturing and always continue to take on new challenges will share their technology and passion through Mini 4WD, which goes beyond a simple hobby. In addition to experiencing driving on a large course, the venue will also feature exhibits of the latest technology and products from participating companies, providing a great opportunity to see the inside story of development, their dedication, and ideas. Experience the fun and depth of manufacturing, as well as the passion of companies that continue to take on new challenges.
